ABOUT ME:

I am a dedicated and hardworking professional always ready to prove myself. With a background in app development using platform such as android studio too, I bring a proactive approach to challenges and a commitment to achieving results. Adept at team work, communication, and leadership, I thrive in dynamic environments and consistently deliver high-quality work. Seeking opportunities to contribute my skills and passion.

PROJECTS

ATM Management System

This project has been build on java netbeans and it acts as a web application .

AIM of this project

The main aim of designing and developing this Internet Booking System java primarily based Engineering project is to provide secure and efficient net banking facilities to the banking customers over the internet. Apache Server Pages, MYSQL database used to develop this bank application where all banking customers can login through the secured web page by their account login id and password. Users will have all options and features in that application like get money from western union, money transfer to others, and send cash or money to inter banking as well as other banking customers by simply adding them as payees.

Website (Using Google Cloud)

My portfolio website is a curated showcase of my professional work and projects. Designed with a clean and user-friendly interface, it highlights my skills, achievements, and experiences. Visitors can explore my diverse portfolio, view projects in detail, and learn more about my background and expertise. The site serves as a comprehensive representation of my capabilities and is a testament to my commitment to excellence.
